

Quality & Security Policy

A.E. Distribution sh.p.k is committed to delight customer by providing Safe, Time bound, Cost Effective and superior quality construction and commerce services. It has implemented the Information Security Management System according ISO27001:2013 in its processes for the scope of activities: implementation of energy and telecommunication projects and civil works design and execution. For that purpose we shall:

- Develop and implement measurable policies and processes while considering the protection of the organization's information assets from all threats both internal and external
- Foster customer confidence by acting in accordance with security standards and check systems
Continually improve the Information Security Management System through the establishment and regular review of measurable security objectives at relevant functions and levels of the organization;
- Commit to comply with business and legal regulatory requirements and contractual security obligations
- Provide systems for protection against unauthorized access
- Ensure confidentiality of data
- Develop, implement, and test a Business Continuity Plan
- Create mechanisms to identify and review the risk and impact of breaches in protected information
- Communicate all pertinent security policies to Customers, Employees and other interested parties as applicable
- The Management shall ensure that this policy is communicated, understood, implemented and maintained at all levels of the organization and regularly reviewed for continual suitability.
- Ensuring continuous improvement and development in all our operations that we have established through an efficient network of communication
- Enabling our employees to focus on success and efficiency by supporting their development with trainings,
- Establishing and maintaining a symbiotic relationship with the stake holders,
- Complying with all legal and statutory requirements.
